9. Number of Days

C Program

```
#include <stdio.h>

int main() {
    int year, month, days;
    scanf("%d %d", &year, &month);

    if (year < 1900 || year > 9999 || month < 1 || month > 12) {
        printf("0");
        return 0;
    }

    if (month == 2) {
        if ((year % 400 == 0) ||
            (year % 4 == 0 && year % 100 != 0))
            days = 29;
        else
            days = 28;
    } else if (month == 4 || month == 6 ||
               month == 9 || month == 11) {
        days = 30;
    } else {
        days = 31;
    }

    printf("%d Days", days);
    return 0;
}
```

Note: February has 29 days in a leap year; April, June, September and November have 30 days.
